REGIONAL POPULATION GROWTH

It is a <u>myth</u> that populations are declining in regional Australia

Across the board regions have grown

REGIONAL CITIES

Population of over **50,000** people

Diverse economies

Size & diversity create future opportunities

7.8% to 4,826,311

Strong growth

CONNECTED LIFESTYLE REGIONS

Do not have city population size

Close to major etropolitan regions

Influenced by their connection

GREW AT

9.3%

to 1,128,899

Similar growth to

metropolitan regions

INDUSTRY AND

SERVICE HUBS

More than

15,000 residents

Located further

from major

metropolitan areas

Performance linked

to industry outcomes

GREW AT **3.3%** to 1,154,354

Slower growth

Can be partly attributed to slow down in mining construction boom

HEARTLAND REGIONS

Smaller regional areas

Isolated from major metropolitan or Regional Cities

Shaped by local ingenuity

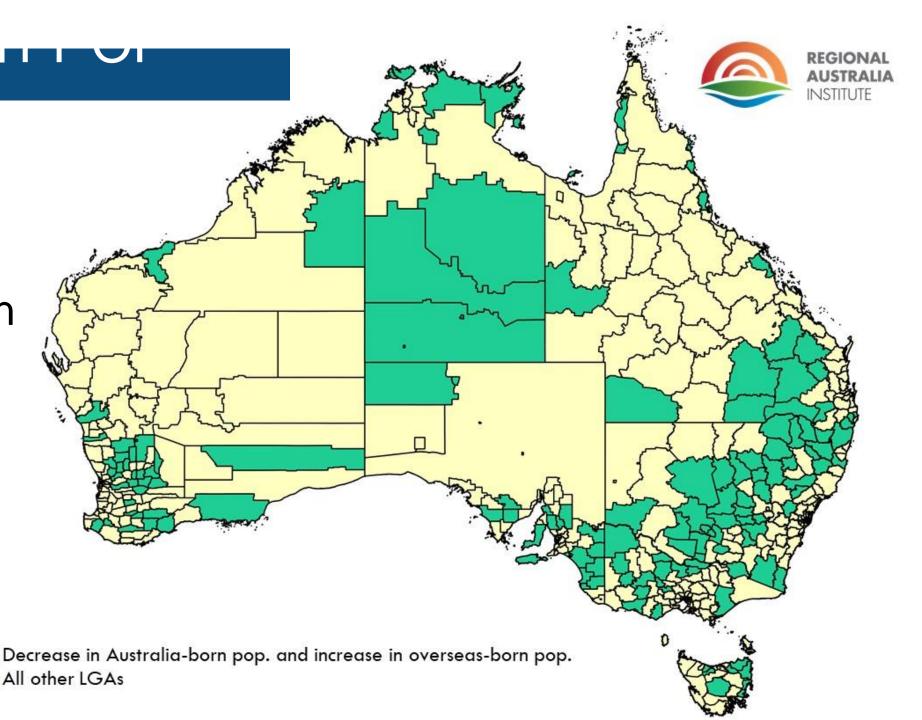

GREW AT **1.6%** to 1,638,707

Stable

International migration is having the biggest impact in regions struggling for population growth

ALL INDUSTRIES	Aged under 30 years	Aged 50 years or over
Australian-born workers	27%	41%
Overseas-born workers	20%	44%

AFF INDUSTRY	Aged under 30 years	Aged 50 years or over
Australian-born workers	16%	50%
Overseas-born workers	24%	38%

KEY MESSAGES

- Regional jobs are changing pessimistic or opportunistic view
 - Automation will affect regions differently, depending on their job mix
 - Agribusiness and tourism are predicted to grow
 - International migration should be a top priority
- Need to think about how flexible communities/businesses are to change and how well they are positioned to take advantage of opportunities
- Many communities are proactive on these issues but efforts are fragmented
